

SOS Children

Creating strong, caring communities

SOS CHILDREN'S
VILLAGES

A loving home for every child

Where family life is at risk, community SOS Family Strengthening Programmes support families and prevent child abandonment.

We help vulnerable families to help themselves; we provide extra care for children plus training and assistance for carers.

When children have lost the care of their families they find a loving home and family for life in an SOS Children's Village.

Each SOS Children's Village has its own local character but all are united by a shared commitment to family life, education and strong community values.
